

ENVIRONMENT POLICY

The BAUER Spezialtiefbau Group of companies acknowledges its responsibility towards the protection of the Environment, and accordingly, is committed to the elimination, reduction and control of potential negative environmental impacts, resulting from its business activities.

This statement of general policy shall cover all offices, operational locations, and Project sites.

In pursuit of its environmental protection goals SAUDI BAUER FOUNDATION CONTRACTORS Ltd. will:

1. Ensure that Environmental Protection is a core value across all business operations;
2. Comply with applicable Environmental Laws and Regulations across all areas of business operations;
3. Implement and maintain an Integrated Management System (IMS) which meets the requirements of, and achieves ISO 14001 certification ;
4. Commit to continually improve the management system through effective monitoring and review of its performance, in order to meet changes in legislation or standards, operational requirements, and customer expectations;
5. Identify and measure environmental aspects associated with its business and undertake thorough assessments in order to effectively control, mitigate or eliminate their impacts;
6. Establish defined Environmental targets and objectives, to be measured and reviewed as part of its Management Review processes and communicate these clearly to all stakeholders ;
7. Allocate the necessary resources for the effective implementation of its Integrated Management System (IMS) across all business locations ;
8. Provide Environmental Protection awareness training for all employees, subcontractors and stakeholders;
9. Establish and maintain emergency and contingency plans to mitigate the negative impact of environmental emergencies and reduce their escalation;
10. Work with suppliers and sub-contractors to improve our environmental management performance;
11. Actively reduce the use of hazardous materials and products and implement measures to protect the environment, whenever such materials must be used, transported, stored and disposed of;
12. Establish an effective waste management programme in order to eliminate, reduce and control the amount of wastes negatively contributing to depletion of natural land and environmental pollution.

It is the duty of the Management, at all levels, to promote and maintain environmental principles in the concept, design, construction, operation and maintenance of all plant, equipment and facilities, storage, use or supply of all substances.
